Deming Cycle

Theses with Companies

- Various Topics possible, especially:
 - Anything with Agile Software Development
 - Continuous Delivery and Testing
- I even might sign a NDA.

Web Technology

- MERN-Stack: Mongo, Express, Node and React
- You need to have done a tutorial beforehand!
- This is NOT sufficient for a bachelor thesis:
 - a "new, better usable interface" in the form of an uncommented css without any user tests / validation or even argument why it is more usable
 - Managing to implement CRUD operations and declaring this as a success of your goals

Web Technology: Suite of Tools for Distance Learning

- Pull Plus: Add Polling Options during Poll
- Groups in Space: find Groups in a Virtual Classroom
- Groups in Space: Dynamic Audio connections dependent on proximity in the Virtual Classroom
- Transfer of other Group Facilitation Methods
